About A Stool

About A Lounge

About A Table

Design by Hee Welling & HAY

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. The son of a cabinetmaker, Welling's fascination with production techniques, materials, and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts. Centred around the idea of creating technically accomplished products that can reach a wide audience, his designs are characterised by a great sense of proportion and quietly elegant aesthetics. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

Work-life

“In the contemporary world, the divide between working and living is not so strict as it once was. As we look to the future of design, we should consider that a balanced lifestyle sometimes means living where we work, and working where we live.”

— Rolf Hay

Home-life

“The About A Collection is meant to be a collection of chairs, lounges, stools, and more that have all the most basic yet essential elements of what they are. It is easy to live with these products because they are so wonderfully simple: every single part is necessary, there is no part that can be removed. It is a pure thing.”

As with all furniture in the About A Collection, the AAL series features a wide choice of cushions, legs and upholsteries that brings comfort and atmosphere to a wide variety of settings, from offices and hotel lobbies to private homes.
