

Workspace Antenna

Antenna Workspaces begins with a simple, inherently collaborative structure - the table.

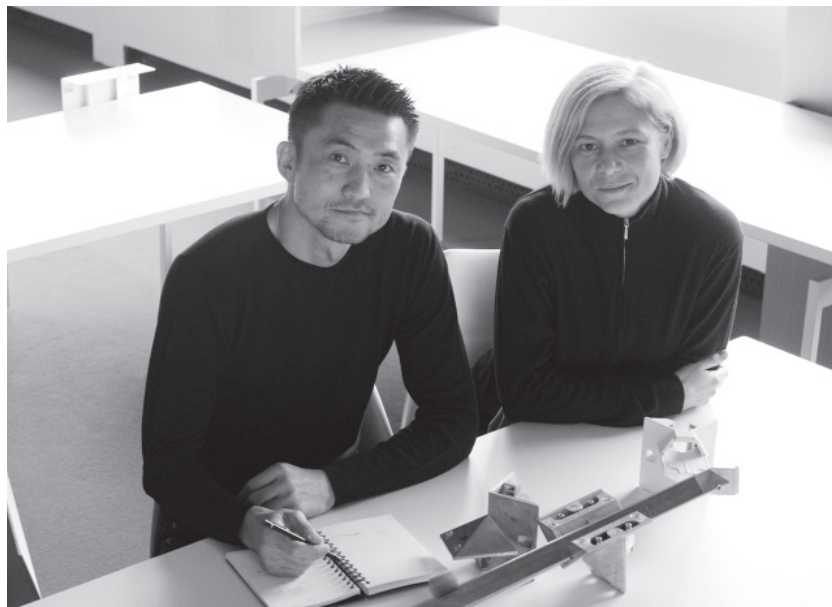

Building with this basic unit, Antenna Workspaces creates focus areas and group environments by linking tables, adding partitioning elements and integrating storage. Throughout, the table remains at the heart of the environment, infusing every Antenna workspace—whether private or open plan—with a creative, collaborative essence.

A new workspace fit for task and team

Antenna Design's commitment to functional simplicity and a pure, honest approach to materials has resulted in a state-of-the-art workplace experience that is as collaborative and dynamic as it is logical and efficient.

A STRATEGIC APPROACH TO THE ENTIRE OFFICE. Antenna serves the growing demand for more flexible, inclusive workspaces that can support multiple work modes simultaneously.

PROGRESSIVE DESIGN. Antenna's neutral grace is a frank expression of function, and its refreshing lack of pretence makes it stand out as well as fit in.

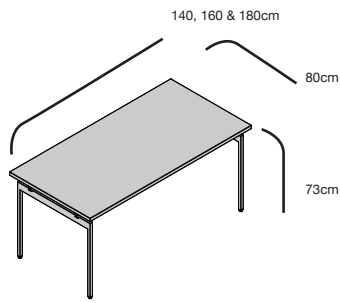

Designed to shape space and support innovation, Antenna Workspaces adapts over time to a variety of practical workplace needs.

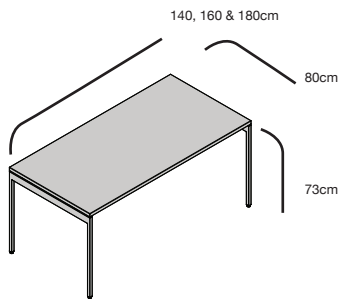

Across industries, organisations are transitioning to more adaptable furniture and more integrated layouts in order to accommodate the diversity of work modes in the workplace.

60 x 60 & 125cm
Left and right handed

Top details

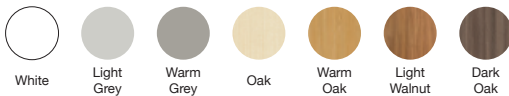

Overlay edge details bring a premium finish to the table. Available in white or light grey laminate or oak veneer. The 3mm thick solid laminates provide a clean edge detail, blending into the solid timber lipping with a more pronounced lower radius for a tactile edge.

Simple tops have a traditional 2mm matching edge band and 2mm edge radii.

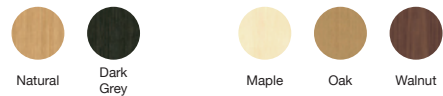

- + Tables have a 28mm thick top with square edge detail as standard
- + Edge bands match top finish as standard and have a 2mm radius to all edges
- + Tables with Overlay edge details are available in white or light grey laminate or oak veneer
- + Grain direction is in the long dimension
- + Tops are available as plain or with a flap. Flap options include opening towards or away from user
- + Back to back dimension options of 167 or 174cm
- + Big Tables have a central beam to mount screens, cable management and monitor arms
- + Extension tops and storage can be specified in matching or contrasting materials
- + Tables are available as either square or rectangular
- + Single tables and meeting tables have two leg detail options. With the rail finishing inside the leg or on top of the leg.
- + 80cm wide legs are painted. 100cm wide legs are available painted or chromed
- + Screens can be specified as full-width or inset
