Hi Lo ^{AV54-AV55}

Anderssen & Voll

A sofa that envelopes: resign to comfort with Anderssen & Voll's new Hi Lo.

Challenging the proportions of conventional lounge seating, Anderssen & Voll's two-piece Hi Lo sofa series intertwines unparalleled comfort with dynamic form.

A new modular design for &Tradition, Hi Lo's generous proportions and prioritisation of cushioning with figure-hugging upholstery make for a sofa that envelopes users. Low to the ground, a high-back and upwardly curving seat form almost a C-shape, demonstrated in its side profile, inviting the sitter to sink into comfort while adopting a reclined, relaxed posture.

The name, Hi Lo, reflects a duality between high comfort and low form, structure and ease. It also carries connotations of Hi-Fi culture, recalling the immersive feeling of listening to the right soundtrack in the right space.

"A good sofa will explain itself to your body when you sit down," explains Torbjørn Anderssen, of Anderssen & Voll. He continues, "Hi Lo has a very distinct side profile. The first sketches dealt with pairing this reclined form with ergonomics and deep comfort. However, as the idea developed and we expanded from 2D to 3D modelling, we found that approaching Hi Lo from the front was like arriving at a sloping, soft hill, which was an impactful and surprising discovery for us."

Both casual and considered in its form, the upward curve found in the seat lightens the overall aesthetic of the sofa, as not to dominate the spaces it occupies, while also easing the task of cleaning – a feature particularly suited to busy professional environments.

"With Hi Lo, we wanted to make a sofa with fluidity, so that people have the option to create as much or as little of a lounging area as they pleased. Whether people they opt for a single seater or a configuration, Hi Lo is sofa that has been designed to sit in while savouring moments listening to music, enjoying a drink or for making memories with friends and family." adds Espen Voll, of Anderssen & Voll.

Comprised of a one-seater and a corner sofa module, the Hi Lo series is designed for versatility. The single module stands as a compact yet substantial piece, making it ideal for introducing an element of grandeur in smaller home spaces, while also succeeding to hold its own in larger hotel lobbies or waiting rooms. A buildable design, Hi Lo modules easily combine to create larger configurations that are equally suited to unwinding at home, as they are injecting life into contract and hospitality locations. Attachable at either side of the single sofa piece, the corner module then allows for dynamic L-shape arrangements.

Impact

The inner structure of Hi Lo is made using FSC® certified wood and recycled materials, supporting responsible management of the world's forests. The collection uses certified low-emission upholstery foam, ensuring it is tested against harmful chemicals that may pollute indoor air. It is available with EU Ecolabel certified top fabrics, ensuring more socially and environmentally positive fibre production and strict restrictions on hazardous substances. Produced in a factory powered by certified renewable energy, contributing to CO2e reductions.

Anderssen & Voll is an Oslo-based design studio founded by Torbjørn Anderssen and Espen Voll in 2009. Guided by their Scandinavian heritage and an affinity for the material at hand, Anderssen & Voll have established a profoundly intuitive practice informed by their artistic sensibilities.

Anderssen & Voll works across multiple creative disciplines, including furniture, lighting, home accessories and textile design. From the early sketches to the final product, every step in the creation of a new design is thoughtfully considered—resulting in a portfolio of work that embodies a sense of care and attention to detail that is synonymous with the design duo's creative pursuits.

Founded in 2010 in Copenhagen, &Tradition is an international brand, built on a Danish legacy of craftsmanship and design. We tell stories with originality. Whether our starting point is new or re-issued, we are passionate about designing the classics of tomorrow. We believe in empowering our employees and network of creatives, designers and partners to take an active part in our journey as a brand. With the planet and the people at the core, we strive to always act conscientiously.
