

The family of sofas and armchairs in specific shape inspired by origami toys. The collection has special elbow rest and the backrest in characteristic shape of trapezoid leaning outside, has a soft foam body based on skids. The family also includes tables with characteristic bent tabletop rims.

In 2016, the designer of the collection, Piotr Kuchciński, expanded it with two eye-catching armchairs – Lounge and Club – and chairs. The models are available with wooden legs or skids: made of ashwood in its natural colour or stained in black, grey, dark blue, red or white, or beechwood.
