

Ollin™ Monitor Arm

As technology advances, devices become lighter and more compact. With the Ollin Monitor Arm, you can position your monitor or laptop wherever is most comfortable—no matter how much the device weighs (up to 20 pounds). The range of motion and tilt range are ideal for touch screens and allow you to bring the screen to you—not the other way around.

Benefits

- Supports the lightest devices
- Adjustable for many needs, with wide range of motion and forward and rearward tilt range
- Power is incorporated, avoiding clutter and keeping cables organized

Warranty

12-year, 3-shift

Ollin™ Monitor Arm

Key Features

- 1. Weight Support**
Ollin supports a range of monitors and laptops up to 20 pounds.
- 2. Thumbwheel Adjuster**
Ollin doesn't require tools to adjust the arm because it has an integrated thumbwheel adjuster—a hassle-free solution for screens of various weights.
- 3. Counterbalance Adjustment**
A built-in weight gauge and counterbalance adjustment lets you set the tension to work smoothly with any device.
- 4. Wide Range of Motion**
Ollin's wide range of motion (horizontally 26.5 inches and vertically 13.5 inches) and tilt range (up to 80 degrees rearward and 10 degrees forward) is ideal for touch screens and encouraging healthier postures.
- 5. Cable Management System**
The three-point cable management system helps avoid clutter and keep cables organized.
