## Collection overview

### Wall Panel

arper

Square version  
one colour or two colours  
version, with horizontal insert

Square version  
one color or two colors version,  
with diagonal insert

Round version  
one color or two colors version,  
with central insert

Oval version  
one color or two colors version,  
with central insert

### Freestanding

Freestanding module made up of  
of a round panel upholstered  
in one color fabric on a matt  
black metal base.

Freestanding module made up of  
of a round panel upholstered in one  
color fabric on a matt black metal  
base.

Freestanding module made up of a round and a square  
panel upholstered in one color fabric, with the choice of  
a different color for one panel, and resting on a matt black  
metal base.

Freestanding module made up of a square panel  
upholstered in one color fabric on a matt black metal base.

# Parentesit Wall Panel

The primary forms of Parentesit can be arranged to articulate graphic patterns adaptable to any environment. The positions of the panels can further be assembled into different orientation options that extend the geometric visual language into compositions of parallel, perpendicular, or diagonal lines. All orientations of Parentesit can be determined in the installation process and, with only few tools required, can mount onto any wall surface. Minimal in form, minimal in effort.

The central aesthetic profile is available in the following colours:

- V12 (White Matt)
- V39 (Black Matt)

Warranty: 2 years

The Parentesit Wall Panel is available with four options for embedded functionality.

- 1 Sound Absorbing:**  
an acoustic panel version is made from certified sound absorbing materials for when quiet space is needed.
- 2 Light:**  
a switch-operated, built-in light-enabled version enhances visual impact.
- 3 Audio:**  
a Bluetooth-controlled audio speaker option allows the regulation of sound environment remotely.
- 4 Audio + Light:**  
light-and-audio-enabled version with dimmer switch is manageable via dedicated app.dedicata (downloadable from App Store and Google Play).

## Composition examples

# Parentesit Wall Panel

arper

The sound absorbing Parentesit Wall Panel is made from an internal panel that has been tested and certified for its superior performance in absorbing ambient sound. In the testing process, to maximize the effectiveness of the sound absorbing Parentesit Wall Panel, upholstery options are available in fabrics that help to muffle sound, giving additional protection against environmental noise and increased opportunity for quiet, uninterrupted work.

1 The internal panel was tested in a controlled echo chamber according to the UNI EN ISO 354 standard. The results shown here indicate absorption coefficients for every frequency tested, demonstrating the efficacy of Parentesit to reduce noise under a broad range of frequencies.

2 According to the industry standard used to classify sound absorbing material, ISO 11654, the values of sound absorbing coefficients are expressed by  $\alpha$ . This table shows the sound absorbing curves classified in classes from A to E, where A is the best.

Note: The sound absorbing characteristics are lost if it is upholstered with non breathable materials.

# Parentesit Freestanding

A private enclosure for collaborative work contexts. Freestanding Parentesit creates a retreat for individual, focused work or collaborative group discussions. Four versions — inset little circle, big circle, square, or circle and square combination — are each given structure and substance by a supportive frame. These modular pieces can be combined to create graphic expressions of archetypal forms or customized with color to generate bold compositions that articulate space and define shelter.
