

KINESIT

arper

Kinesit

Introducing Kinesit, Arper's first office chair that is one hundred-percent compliant with regulatory requirements. Light and minimal in design, the chair seat and back are fully adjustable allowing it to conform to individual body types for optimal comfort, even during more time consuming projects. The chair features a built-in mechanism hidden discreetly under the seat that provides synchronized movement and seat height command.

An invisible, adjustable lumbar support is concealed within the backrest's thin frame to give additional flexibility and comfort. Kinesit is customizable with all fabric collections in Arper's catalogue. Kinesit Chair is available in three seatback heights and a range of bases, and with or without arm rests for a range of possibilities. A wide selection of upholstery fabrics and leathers in Arper's full range of colors, textures and tones, or in the standard mesh covering, make Kinesit Chair customizable to diverse design applications and interior spaces.

Designer

Lievore Altherr Molina, 2014

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.

Kinesit

A Self-Tensioning Weight Response Mechanism – developed in cooperation with Donati Spa, a true expert in the sector – and adjustable chair commands are hidden in the seat, replacing the need for visible mechanisms

- 1 When the backrest is reclined, the seat breathes upwards to 15 mm with a synchronized movement.
- 2 A fixed or adjustable in 2D armrest provides ergonomic stability.
- 3 18 degrees of backrest recline ensuring a continuous movement, and 3-position recline.
- 4 Intuitive lumbar support function is invisibly integrated under the backrest.

Kinesit

The built-in Self-Tensioning Weight Response Mechanism balances the recline of the backrest, responding to the weight and pressure of the user.

- 1 A Self-Tensioning Weight Response Mechanism is integrated into the seat.
- 2 Height adjustable lumbar support.
